“ We met Betty 40 years ago. The door bell rang and a beautiful lady with ocean blue eyes and golden hair stood with a huge basket of thoughtful gifts to welcome us to our new home. Betty and Jack would always call us back. They were the best friends we could ever have in our lives. Every emergency I caused they came to the rescue for example: catching the kitchen stove on fire, losing the cat behind the chimney, thinking a bear was in the barn, chasing chickens off a roof and she was there when I lock myself out of our home with my daughter inside. She help us move to Florida. Betty spent hours helping us pack 300 books that I was unable to part with even one. Betty gently would suggest that maybe I should bring only a few. She would make us food when we were ill. She would invite us to celebrate special occasions with her family. One major car accident that total my Honda Jack took my husband old Honda and my totaled Honda and rebuild a new car for us. When I had my daughter once again the doorbell rang and Betty had a huge basket with special baby things. Betty always found humor in things that went wrong. She would give suggestions and show the need to stay strong. She was kind, thoughtful, and caring. Our hearts are sadden that our doorbell will not ring again. We loved her with all our heart. May she be surrounded by the people and things that she loves. She will not be forgotten.💕💕

“ My sincere condolences to the Morris, Milks, and Shepherd families. Your mom was always the prettiest mom on all the class trips in middle school and gave the best teenage advice in high school. Your mother's love will always be with you, look for the signs, you'll find them everywhere. May Betty rest in the sweetest peace. My love to you all.
