“ I'm very sorry for the loss to your family. I worked with Helen as a young engineer at Picatinny Arsenal in the mid to late 1990s. Helen was an outstanding contracting officer always looking out for the best interests of the soldier and taxpayer. I learned a lot from her professionally and how she worked with people. She made a huge difference to the lethality and survivability of our warfighters, most of who never even heard of Picatinny Arsenal. What they did know was that they had safe, reliable, and effective ammunition that could always be counted on. It was acquisition professionals like Helen who did all the behind the scenes work to make that possible. Rest in Peace Helen and thank you for your service!
